

FOREWORD

[2019 Edition]

This 2019 edition is a complete reissuance of the Air Force Federal Acquisition Regulation Supplement (AFFARS). The AFFARS is required for use by all Air Force contracting organizations in their acquisition of supplies and services with appropriated funds. The AFFARS implements and supplements the FAR and Defense FAR Supplement (DFARS) as necessary, but does not unnecessarily repeat, paraphrase, or otherwise restate the FAR or DFARS.

There are requirements to obtain approvals from, and provide notifications to, the Deputy Assistant Secretary (Contracting), SAF/AQC, or higher throughout the AFFARS. In these circumstances, unless otherwise stated, send all requests or notifications and associated documentation to [SAF/AQC Workflow](#) for disposition by SAF/AQCK or SAF/AQCA, as appropriate. Advance notice of pending actions and submission of draft requests/documentation is highly encouraged. Electronic submission, with a digital copy of signature pages, is preferred in order to expedite processing.
